PHILOSOPHY

Braemar Technical Services is dedicated to providing the most professional loss adjusting and other expert services, supplying integrated capabilities of the highest calibre, and meeting the diverse demands of specialist insurance markets worldwide.

Braemar Technical Services is becoming the benchmark for professional service levels in their sector by continuing to invest in its people and infrastructure through a combination of selective recruitment, formal training, systems development, mentoring, and peer support.

Braemar Technical Services believes their services are most effective when all parties trust and rely upon professional independence.

OUR SERVICE

Braemar Adjusting has provided Energy, Marine and Property Insurers, Brokers and Assureds with the highest quality, professional Loss Adjusting and Surveying services enabling Insurers to reach amicable and equitable settlement of claims made by their Assureds. This service includes:

- ✚ Immediate response, including site visits by relevant technical personnel.
- ✚ Timely clear, concise communication, and regular formal reporting.
- ✚ Accurate reserve information revised as appropriate throughout the job.
- ✚ Full investigation of circumstances, causation, and future loss prevention.
- ✚ Advice on the suitability and cost of remedial measures.
- ✚ Review of all contracts with relevance to insurable interest, indemnification, and subrogation.
- ✚ Complete policy review, identifying terms and conditions relevant to the claim.
- ✚ Review of recovery and subrogation potential.
- ✚ Adjustment taking full account of the policy wording, law, and relevant practice.
- ✚ Impartiality.

OUR BUSINESS

Upstream Oil & Gas:

Drilling, Construction, Coal seam gas, Property, Offshore Vessels, Business Interruption & Liabilities

Petrochemicals:

Construction, Property, Business Interruption & Liabilities

Power & Utilities:

Generation, Transmission & Distribution, Alternative Energy, Business Interruption & Liabilities

Mining:

Coal, Base & Precious Metals, Alluvial Mining & Dredging, Business Interruption & Liabilities

In Addition...

Risk Assessment, Expert Witness, Engineering Studies, Condition and Valuation Surveys

OUR EXPERIENCE

The Calgary team has 27 years of energy engineering experience, 75 years of insurance industry experience, and over 29 years of energy insurance experience. The team handles a wide variety of claims from different lines of business.

Calgary

Paul Cameron (CIP)
Managing Director
Phone: +1 (403) 538 5450
Mobile: +1 (403) 614 8226
Email: paul.cameron@braemar.com

Paul entered the Insurance industry in 1990 where he worked for 11 years in the Toronto market as a Claims Examiner specializing in liability and commercial property claims. Paul has worked over the past decade as an Independent Adjuster. He joined Braemar Adjusting in 2009, where as a Senior Adjuster he has specialized in the liability and property claims arising out of the energy and utility industries. In 2012 Paul was promoted to Director and holds a role on the Appeal Board of the Alberta Insurance Council.

Randy Lim (CIP)
Director
Phone: +1 (403) 538 5450
Mobile: +1 (403) 605 1885
Email: randy.lim@braemar.com

Randy joined the Braemar team as a Senior Loss Adjuster in May 2013, before being promoted to Director in September 2016. With more than 25 years' experience in the insurance industry, Randy has held various and progressive roles including claims handling, claims management, relationship management and business development with various underwriters and vendors as well as claims advocacy and account management with a large international brokerage.

Apar Purohit (P.Eng.)
Senior Engineering Adjuster
Phone: +1 (403) 538 5450
Mobile: +1 (403) 813 7733
Email: apar.purohit@braemar.com

Apar joined the Braemar team as a Senior Loss Adjuster in May 2014. He has been employed as an engineer over the past 15 plus years, working for a number of large E&P companies in the Western Canadian sedimentary basin. Apar has developed strong technical and project management skills in downhole and surface engineering, field and operations management, production and facilities engineering, and pipeline integrity and risk management

Goel Edworthy (B.Eng.)
Loss Adjuster
Phone: +1 (403) 538 5450
Mobile: +1 (403) 472 6362
Email: goel.edworthy@braemar.com

Goel obtained a Bachelor's Degree in Electrical Engineering at the University of Victoria. He started his oil and gas career with Phoenix Technologies working as a Measurement While Drilling (MWD) operator before moving to the marketing division of Imperial Oil. Goel also worked at Nexen where his main role was to aide in their ESEIEH (Effective Solvent Extraction Incorporating Electromagnetic Heating) project..

John Riad (P.Eng.)
Loss Adjuster
Phone: +1 (403) 538 5450
Mobile: +1 (403) 470 2590
Email: john.riad@braemar.com

John graduated in 2005 with a Bachelor's Degree in Chemical Engineering from the University of Calgary. John has over 8 years of experience within the oil and gas sector, working for E&P companies with assets based in the Western Canadian Sedimentary Basin as well as the Cherokee Basin within the United States. Starting his career at a large oil and gas company, John specialized in wellsite regulatory compliance, and production decline analysis.

Connor Scott (B.Sc., CIP)
Loss Adjuster
Phone: +1 (403) 538 5450
Mobile: +1 (587) 897 0361
Email: connor.scott@braemar.com

Connor joined Braemar in November 2012 after working with one of North America's leading Environmental Consulting companies, where he performed Environmental Impact Assessments for major energy pipeline and facility construction projects and formulated response strategies for insurers of oilfield pollution releases. Fluent in Spanish, Connor holds both Canadian and US passports.

Elizabeth Siemens (M.Sc., P.Eng.)
Loss Adjuster
Phone: +1 (403) 538 5450
Mobile: +1 (587) 215 6976
Email: elizabeth.siemens@braemar.com

Elizabeth joined the Braemar team in October 2014. She has research experience in hydrotreating, biofuels, and oil sands tailings and has worked as a process engineer with a variety of EPCM firms over the last 5 years. Her design experience encompasses the mining sector, specialising in potash, uranium, and iron ore. Furthermore her Energy sector experience includes SAGD, oil sands slurry preparation, hydrotransport, solvent recovery, water handling, and surface facilities design. Elizabeth is fluent in French.

Rachel Tilford-Njaa (ET)
Loss Adjuster
Phone: +1 (403) 538 5450
Mobile: +1 (403) 461 7991
Email: rachel.tilford-njaa@braemar.com

In 2009 she graduated from Syracuse University with a degree in Chemical Engineering, which she attended on an athletic scholarship. Once out of university, Rachel started her career with a major engineering, procurement, construction, and management firm working on the front end design of a new bitumen plant. After just over a year she moved to a major Canadian oil and gas producer, as a Production Engineer and gained field experience working in bitumen mining and extraction operations..

Dr. Troy Eggum (PhD, P.Eng.)
Loss Adjuster/Materials & Corrosion Engineer

Phone: +1 (403) 538 5450
 Mobile: +1 (403) 616 8923
 Email: troy.eggum@braemar.com

Prior to joining Braemar in July 2015, Troy worked as a Senior Corrosion Engineer in the upstream and midstream industries. He developed an internal corrosion predictive model for use in offshore erosion-corrosion of downhole tubing (published and presented at NACE CORROSION 2015), and securing government funding to support company research into microbially influenced corrosion. Troy's other experience includes: Pipe Stress Engineering for an EPCM company, Analytical/Environmental Chemistry with a contract laboratory, and upstream plant and battery operations for a major exploration and production company.

Richard Collins (MEng)
Loss Adjuster

Phone: +1 (403) 538 5450
 Mobile: +1 (403) 618 9996
 E-mail: richard.collins@braemar.com

Richard has a MEng (Hons) in Aeronautical Engineering from Loughborough University and started his career in aircraft design for Airbus' Future Projects department. Richard joined Braemar Adjusting in July 2013 and has since been involved in a variety of complex onshore losses involving hydro-electric power generation, downstream refining, electrical transmission and distribution. In addition, Richard has broadened his offshore expertise handling a number of offshore Operational and Construction Claims.

Matthew Honeychurch (BBA)
Loss Adjuster

Phone: +1 (403) 538 5450
 Mobile: +1 (403) 870 5322
 Email: matthew.honeychurch@braemar.com

Matthew joined Braemar as a part time employee in May 2014 while he was working to complete his Business Degree at Mount Royal University. In April 2016 he completed his Bachelor of Business Administration, with a focus on Insurance. Recently he has transitioned into a full time role as a Loss Adjuster. Since joining Braemar Adjusting, Matthew has been in a variety of complex onshore losses involving wind power generation and upstream petroleum facilities.

Jane MacInnis (P.Eng.)
Loss Adjuster

Phone: +1 (403) 538 5450
 Mobile: +1 (587) 998 7772
 Email: jane.macinnis@braemar.com

Jane has held contract positions in operational and engineering. She has worked at a major oil and gas operator in both thermal and cold producing heavy oil wells, where she planned and executed new completions and work-overs. In her fourth year with this producer, she supervised the completion of sour wells in the Foothills region of Alberta. Jane has completed extensive training in well control, well design, and operational strategy and received her Professional Engineering designation in 2016.

Nathan Narciso (CIP)
Loss Adjuster

Phone: +1 (403) 538 5450
 Mobile: +1 (587) 892 4977
 Email: nathan.narciso@braemar.com

Nathan graduated with an Honours diploma in Insurance in 2016 from the McKeil School of Business at Mohawk College. He has experience working in the Toronto insurance restoration industry, where he was involved as a Crew Supervisor, and obtained his Water Damage Restoration Certification from the IICRC. He oversaw losses occurring both to residential and large commercial properties. Nathan went on to work at a major insurance provider and gained property and casualty experience while working in their litigation management unit.
